CAN YOU FIND THE WORDS BELOW IN THE WORDSEARCH?

- 1) What insect helps plants to fruit by pollinating them?
- 2) What do you call someone who looks after a garden?
- 3) Bumblebees have smelly feet, which helps them to not _____ a flower.
- 4) What needs to happen for a flower to be able to transform into a fruit? (hint - bumblebees really help with this)
- 5) Bumblebees help pollinate most types of ____, including strawberry, raspberry and blackberry.
- 6) Bumblebees prefer cooler ____, as they will over-heat in hot conditions, which is why climate change is bad for bumblebees.
- 7) A green bumblebee pollinated fruit (which you might think is a vegetable), and could be described as long and thin.
- 8) A bumblebee pollinated, red fruit that grows on a vine or shrub.
- 9) the buzz or hum bumblebees give off could be described as a _____.
